

I am 55 years old and I appreciate being able to get AIR 1 in our area. My teenage children, and a lot of their friends, also listen to it almost exclusively. It is an attractive alternative to what they could be listening to.

If you were to allow AIR 1 to be replaced, by an LPFM broadcaster, it would leave our community without an alternative.

For our community to be able to listen to such great music and commentary is a gift that we don't take for granted.

Please help us protect stations like AIR 1 in our area.

John J. Walker
